**Importance:** High

so should we take the international studies out of our budget and our 5 year plan, or keep them in as a place holder? -L

that's sort of right. it is all organized under Hans, but PMI will pay for country specific studies and manage them.

Loreen, thanks for the info. We will put this in the 5YP that Earl will present to Urs on Wednesday.

FYI-Per Urs noted at his Staff Meeting a few weeks ago that WSA would not be performing Human Exposure Studies for International. You may want to confirm this with Rick.

Thanks, Chris

<< File: 5 Year Info 6-20-021.xls >>

Chris and Linda,

Here is the information as gathered from point persons within Rick's staff. Rick and some of his staff has not yet reviewed. We are trying to get a copy to him/them for comment but have not yet been successful.

If you have any immediate questions, please call Robin Phillips at ext. 4-3487. I will be on vacation tomorrow through 7/8.

We will have better, more accurate input next week.  
This is our best guess with many key people out of the country at this time.

-L

Hope this helps,

-L
